INNOVATIVE APPLICATIONS...

PLASTIC LINING SPECIALISTS

Redwood Plastics is a trusted supplier & fabricator of industrial plastic UHMW liners. In order to give better technical support to our customers we have formed the Redco Linings Group, specializing in the design and layout of the liners in hoppers, bins, chutes, silos and trucks.

A full compliment of lining materials (UHMW, TIVAR, TITANIUM, POLYURETHANE, POLYPROPYLENE, and OTHERS) gives Redwood a broader range of High Quality & Proven Products for our customers.

We have also added CNC fabrication (saws & routers) to our welding and machining facilities. This gives us more capabilities in specialty components, parts and liners.

FRP GRATING

In conjunction with our partners in the Prisma group, we are offering a high quality line of industrial FRP (fiberglass reinforced plastic) Grating & Structural products for a wide range of chemical, food, electrical and industrial applications.

These products offer Non-Conductive, Fire Retardant, Weatherproof, Corrosion Resistance, Non-Magnetic, Non-Sparking, Light Weight, Impact Resistant, and Non-Skid Surface characteristics.

All the related stainless steel clips & fasteners are stock items.

The Redwood Plastics Engineering Newsletter keeps you informed of the new and innovative products and services that are coming to the market place in the future. If you are not on our list, please feel free to contact Bill Fulton (604 607 6000), Don McMillan (604 607 6000) or your local Redwood Plastics branch to be added to the mailing list. Engineering Solutions

REDWOOD PLASTICS has teamed up with Warehoused Plastics Sales of Ontario and Plastiques Alto/Polyfab of Quebec to form a strategic alliance; Prisma Plastics International Incorporated. This alliance will allow each of the companies to grow their businesses by offering a broader range of products and services.

DID YOU KNOW?

REDWOOD PLASTICS has been gradually expanding its market base to various regions of North America.

- We have two manufacturing, fabrication & machining facilities in the Redwood group: Woodland, WA, USA & Langley, BC , Canada.
- There are sales, distribution & fabrication centers in Woodland, WA; Spokane, WA; Atlanta, GA; Langley, BC; Prince George, BC; Edmonton, AB; and Kitchener, ON.

There are 32 inside & outside sales personnel offering excellent service and technical information to our customers. We also have in house marketing & training departments to keep our personnel and customers tuned into the vast array of new polymers and technologies that are changing the face of the plastics industry regularly.

It is now very common for Redwood Plastics to be putting on Lunch & Learn Seminars for engineers as well as our customers. If, your company would like to participate in this program please contact us.
