

VISIT REDWOOD PLASTICS NEW WEBSITE

Why is it a new website, when the address is the same?

Your projects are important and we strive to have the most current and relevant information available, to ensure your project will be a success. We know we must constantly change to keep up with today's technology.

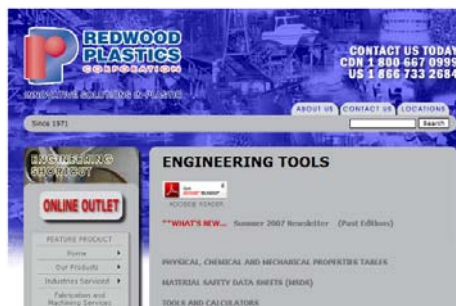

Our website is new because it has been completely changed. New technology, new equipment, processes, materials, applications, markets, tools, news, data sheets, and services have been added to answer many questions... fast! Innovative solutions for many applications and material information on all our products are now available on our website.

The website is designed to assist in the selection of the correct plastics material for a variety of applications. There are thousands of plastics in the market today, each having their own specific physical properties that make them unique. These unique qualities give them the advantage to solve problems with wear, impact, impingement, friction, static, corrosion and abrasion... to name a few.

Redwood Plastics has developed one of the most comprehensive sites for industrial plastics and plastic applications. Technical data for engineering is also available, as well as practical information that will help you in determining your plastics needs.

Please visit our website @ www.redwoodplastics.com or contact us at one of our local branches.

Redwood Plastics will work with you to assist in the design & development of your product needs.

The Redwood Plastics Engineering Newsletter keeps you informed of the new and innovative products and services that are coming to the market place in the future. If you are not on our list, please feel free to contact Bill Fulton (604 607 6000), Don McMillan (604 607 6000) or your local Redwood Plastics branch to be added to the mailing list.

Engineering Solutions

EASY INSTALLATION TO IMPROVE WORK SAFETY

FRP GRATING is NON-CORROSIVE and NON-CONDUCTIVE

Redco™ PRISMAGRATE and STRUCTURAL PROFILES are now available,

IN STOCK = QUICK DELIVERY

COST SAVING BENEFITS:

- **Chemical and Corrosion Resistant** - withstands corrosive conditions
- **Non-Conductive** - eliminates electrical/thermal hazards
- **Unmatched Impact Resistance** - provides long term durability
- **65% Lighter than Steel** – easy to handle for quick onsite installation
- **Easy to Fabricate** - reduces installation expenses
- **Slip Resistant**- improves safety, reduces slips and falls
- **Long Maintenance-Free Life** - cuts life cycle costs dramatically
- **Electronically Transparent** - will not affect electromagnetic/radio frequencies

Redco™ PRISMAGRATE provides durability with extremely high strength and stiffness. Due to its high load capacity it can be used with confidence in applications where wide support spans are required.

APPLICATIONS:

- Platforms
- Assembly Lines
- Stairs
- Bridges
- Jetties
- Vent Grills
- Piers

FIRE RETARDANT
WEATHERPROOF
NON-SPARKING
IMPACT RESISTANT

ANTI-SLIP
NON-CONDUCTIVE
MAINTENANCE FREE
NON-SKID SURFACE

LIGHTWEIGHT
NON-MAGNETIC
CORROSION RESISTANT
EASY TO INSTALL
