

DUMP IT **FASTER** & **SAFER** WITH REDCO™

Why you should consider a Redco™ Seamless Dump Truck Liner?

Performance

A Redco™ Liner will give you controlled and precise material placement so you can confidently know your load is exactly where you want it, while remaining in the comfort of your cab. Stop wasting money with carry back, all that material you carry around costs you time and money. You can increase the number of loads per day and increase your revenues. Eliminate trailing mounds; put that material right where it's needed.

Maintenance

Lower dump angles means less wear and tear on your hoist, no leaky fluids from exposed cylinders. Redco™ Liners will reduce the need to slam dump reducing wear on all your major parts like brakes, tires and hoist. Liners also eliminate premature box wear, no more washboard floor.

Safety

A Redco™ Liner prevents rollovers by dumping every load consistently at a greatly reduced dump angle.

AVAILABLE GRADES

Econoliner

This cost effective entry level HMW-PE liner is non-stick but has limited impact strength. It is good for Sand, Topsoil, Snow and Contaminated Soils. The expected life is seasonal but will help you get that sticky job done quickly.

- Available in 10' width x ¼"thick.*

Repro Liner

This premium grade UHMW-PE liner is a workhorse. It has excellent abrasion resistance and high impact strength. It is formulated to manage the broadest range of materials like Gravel, Crushed Rock, Wet Dirt and Excavation Residue. It is designed to outwear both aluminum and steel in most applications so you can expect this liner last year after year, season after season.

- Available up to 16' wide and in 3/8" and 1/2" thickness.*

Asphalt Liner

This is also a premium grade UHMW-PE liner has been designed and tested to handle Asphalts up to 350° F. It's super slick and abrasion resistant and can handle your day to day work and Hot Asphalt when you need it to.

- Available up to 16' wide and in 3/8" and 1/2" thickness*
