

Redco™

Sheaves & Pulleys

Outlasting & Outperforming
Traditional Metals

Redco Sheaves & Pulleys

Redco™ Nylon Cable Sheaves & Pulleys offer high load bearing capabilities (up to 4000 PSI), are light weight, self lubricating and have a low co-efficient of friction. Redco™ Nylon is easily machined and is both an outlasting and outperforming replacement for metals and other plastics.

A heat stabilized formulation is available for applications with a maximum continuous operating temperature of 260°F.

- Ultimate compressive strength is 15,000 psi
- Bearing compressive strength is 4,000 psi
