

LESS DOWNTIME

Keep your fleet running longer in the harshest conditions.

Redco™ Gladiator SNOWPLOW BLADES

- Outlasts Steel by up to 400%.
- Resilient Rubber compound adjusts easily to road surface irregularities. Will not gouge asphalt, concrete or tar-gravel surfaces. **Rubber blades won't damage pavement markers.**
- Provide quick, clean removal of heavy snow and slush.
- Safer at High-Speed runs. Clearing highways and airport runways in the **shortest possible time.**
- **Reduced Impact Shock.** Rubber plow blades absorb impact, shock & vibration. Less stress is transmitted to the plow and vehicle resulting in longer life for your fleet.
- Lowered Maintenance Costs. Rubber blades require replacing less frequently than steel blades, resulting in fewer man-hours and less downtime.

MATERIALS/GRADES AVAILABLE:

SBR, SBR/Natural Rubber Blend & Polyurethane

CHEMICAL RESISTANCE:

Great resistance to Ethanol, Formaldehyde, Glycerin, Sea Water & Chloride Solutions

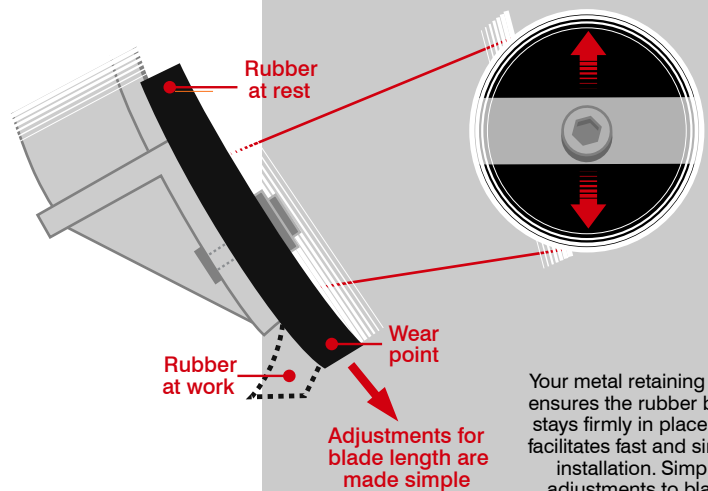

COLOR: Black

DUROMETER: 65/70, 80 Shore 'A'

WIDTHS: 6", 8", 10" & 12"

THICKNESSES: 1", 1.5" & 2" thick

Custom widths and thicknesses available

Your metal retaining strip ensures the rubber blade stays firmly in place and facilitates fast and simple installation. Simple adjustments to blade height can be made based on snow type (ie: longer for lightly packed and shorter for more densely packed).

- ▶ Road & Highway Maintenance
- ▶ Commercial Contractors
- ▶ Airport Runway Maintenance

*UPGRADES AVAILABLE to ultra-durable Redco Polyurethane for extreme applications where extended service life or severe duty requirements are present.

Standard Sizes:

Thickness	Width	Length
1"	8"	120"
1"	10"	120"
1-1/2"	10"	120"
1-1/2"	10"	144"
1-1/2"	12"	120"
1-1/2"	12"	144"
2"	12"	120"
