

The primary responsibility of this position is to assist in the production of a variety of durable mechanical parts from cast polyurethane, a versatile synthetic rubber that can be made as soft as an eraser or as hard as a bowling ball. Tasks include material handling, preparing molds, de-molding of poured urethane parts, casting assistance, trimming and part inspection. The Production Worker is a versatile role that provides ample opportunity for career advancement.

In order to succeed in this position, you must be able to:

- Thorough understanding of all part molding & demolding techniques and the ability to complete tasks with moderate supervision in a timely manner.
- Quickly and efficiently de-mold and trim cast parts.
- Operate hand tools such as the drill press, hand drill, grinder, dremel, band saw, table router, etc.
- Assure all parts handled meet the required production standards as detailed on the work order.
- Clean & Re-assemble molds as required to support production outputs.
- Monitor and maintain safety equipment and hand-tools, ensure that all PPE is being used at all appropriate times.
- Perform all functions of the job safely.
- Maintain an immaculate level of workspace cleanliness and organization.
- Comprehensively and completely fill out all required factory documentation.
- Actively collaborate with all other manufacturing departments to achieve the company goal of 100% on time delivery and 100% quality.
- Perform other duties as assigned.

Your qualifications include:

- Interest and aptitude to learn the skills needed to cast industrial polyurethane.
- Able to read a tape measure and use industrial hand-tools.
- Capable of reading and comprehending blueprints, drawings and general work instructions.
- Must wear a face respirator and PPE as required when working with industrial chemicals.
- Able to stand, bend and lift up to 50 lbs. consistently throughout the day.
- Skill to show initiative and manage your time as part of a high-functioning team
- Excellent English language communication skills; both written and verbal.

Come work for us if you enjoy:

- Competitive salary packages, medical and RRSP benefits with career advancement opportunities.
- Work within a fast paced, high energy and positive environment with tons of opportunities for learning, continuing education and apprenticeship support.
- Company barbeques, events, and working with a charged-up team of professional colleagues
- Fully equipped fitness facilities on-site, with showers to freshen up.
- Coveralls Provided
- Boot Allowance
- Employee-run Safety Committee
- Waffles!

Urethane Caster Production Worker

Company Overview:

Since 1971 Redwood Plastics and Rubber has worked directly with customers to find solutions for a variety of problems including shock, abrasion, noise, wear & friction. Redwood Plastics and Rubber molds, machines, fabricates, and distributes a wide-range of high quality, custom components.
