

BLOCK DEBRIS WITH T-SCALES

Our T-Scales are manufactured from a tough, flexible and abrasion-resistant synthetic rubber. Made in North America our T-Scales keeps debris, dirt and snow out of scales, reducing overall maintenance and operational cost.

Our T-Scales are available in flat or curved top, and other sizes to meet a variety of industry specifications. They are engineered to be easily installed and removed, reducing complexity in your operations.

The dimensions below are from products with a predetermined compound and hardness value. If you require a T-Scale with a specific dimension and have a specific material and durometer in mind, a custom product may be required. Please contact our sales department for more information.

Item Number	A Top	B Centre Leg	C Thickness
D00738	1-3/4"	4"	1/4"
D00925	2"	1-1/2"	7/16"
D00553	2-3/4"	2"	1/4"
D00418	4-1/4"	2"	1/4"
D00940	5"	7"	3/8"
D00362	5-3/4"	3"	5/16"
D01188	6"	2-1/4"	3/8"
D01055	8"	2-1/2"	0.225"
D01092	12"	2-3/8"	1/4"
