

REDWOOD
PLASTICS AND RUBBER

Plywood and Veneer Solutions

Metaloy Clipper Anvils

Redwood now recoats clipper anvils with the same material and quality you've grown to expect from the Metaloy name.

- + CNC processor poured urethane only
- + In-house and non-destructive testing for every core
- + Wear indicators available upon request
- + New cores and crates available upon request
- + Multiple sizes and configurations available

“Redwood Plastics provides clipper anvills with consistent quality. Their team is open to innovation and their customer service makes them a pleasure to work with.

Brad Buckley, Maintenance Superintendent, Kettle Falls Plywood

RENT OUR CLIPPER ANVIL ROLLERS

Redwood Plastics and Rubber is proud to offer our Redco-a-Roller Rental Program for our Clipper Anvil Rollers. We believe that customers want flexibility and we are providing the means to do so.

- Spare rollers in-stock
- Can use for one year
- Dedicated crates for containment

Tuffkast Knock Down Arms

Lightweight enough to not overload your hydraulic cylinders but durable enough to last years, our new Tuffkast knockdown arms are ready to help you.

Each arm comes with a urethane insert that can be easily replaced on-site when required.

Glue Spreader Rollers

We offer glue spreader rollers that can be grooved with industry-standard patterns for maximum effectiveness.

We can replace your end caps, repair your cores and offer regrinds in-between recoats.

Wheel and Roll Recoats

We can recoat your wheels or rolls in-house in a variety of rubber or urethane materials ranging from 30A durometer to 75D durometer.

Up to 20" diameter and 200" in overall length

Plywood Suction Cups

For over 20 years, we have supplied urethane suction cups to help plywood and veneer mills grab and transport materials into designated locations.

Custom sizes available in rubber or urethane.

ABOUT US

Redwood Plastics and Rubber has provided reliable and durable solutions for the forestry industry for over 50 years.

We specialize in turning stock shapes into custom solutions that increase safety, reduce maintenance and save costs.

Some of our products include: UHMW Channels, Urethane Bushings, Sprockets, Nylon Sheaves, Rubber Rollers, Redco Deadplate and more.
